MINIMUM QUALIFYING CRITERIA FOR THE DIAGNOSTIC CENTRES AND HOSPITALS FOR EMPANELMENT OF DIFFERENT DIAGNOSTIC INVESTIGATIONS FOR CENTRAL HOSPITAL, NORTH CENTRAL RAILWAY, NAWAB YUSUF ROAD PRAYAGRAJ

- 1 Diagnostic Center/Hospital should be situated within 6 Kms from the Central Hospital N.C.Railway Nawab Yusuf Road Prayagraj.
- 2 Diagnostic Center/Hospital should mention that whether they are willing to do these Diagnostic Investigations namely (A) **Noninvasive Cardiac Investigations** 1. Holter, 2. 2D- Echocardiography 3. Stress Echo Pharmacological 4. CT Coronary Angiography, 5.TMT, (B).**Other Diagnostic Investigations** 1. Renal Cortical Scintigraphy with Technetium 99m D.M.S.A, 2. Micturacting Cystourethrography (MCU), 3. Retrograde Urethrography (RGU), 4. EEG/Video EEG 5. EMG (Electromyography). 6.Nerve Conduction Velocity (At least Two Limbs), 7. Polysomnography, 8. Barium Swallow, 9. Barium Meal Follow Through, 10. Barium Enema (Single contrast/Double Contrast), 11.Intravenous Pyelography (IVP), 12.Contrast Hystero-Salpingography, 13. USG Guided Intervention-FNAC, 14. USG Guided Intervention-Biopsy for the Central Hospital, North Central Railway Prayagraj as per the NABH & NABL /NON NABH & NON NABL CGHS 2014 Rates for Prayagraj City.
- 3 Diagnostic Center/Hospital should mention that whether their Diagnostic Center/Hospital is currently empanelled with CGHS for these Diagnostic Investigations.
- 4 Diagnostic Center/Hospital should clearly mention the willingness for contract of **TWO YEARS** with Central Hospital North Central Railway Allahabad from the date of acceptance of the work
- 5 Diagnostic Center/Hospital should clearly mention the willingness to work on **BILLING BASIS only** as per the NABH & NABL /NON NABH & NON NABL CGHS 2014 Rates for Prayagraj City as there will be no provision for the advance payment in any case.
- 6 Diagnostic Center/Hospital should have a proper waiting area and changing room for the patient.
- 7 Diagnostic Center/Hospital should have at least a Qualified Doctor with at least 03 years experience for doing and reporting of these mentioned tests.  
**(A) Noninvasive Cardiac Investigations** 1. Holter- Doctor with qualification of MBBS MD DM/DNB/ DIPLOMA (Cardiology) with at least 03 years experience, 2. Stress Echo Pharmacological- Doctor with qualification of MBBS MD DM/DNB/ DIPLOMA (Cardiology) with at least 03 years experience, 3. 2 D Echocardiography-Doctor with qualification of MBBS MD DM/DNB/ DIPLOMA (Cardiology) with at least 03 years experience, 4. CT Coronary Angiography- Doctor with qualification of MBBS MD/DNB/ DIPLOMA (Radiology) with at least 03 years experience, 5. TMT-Doctor with qualification of MBBS MD DM/DNB/ DIPLOMA (Cardiology) with at least 03 years experience,  
**(B) Other Diagnostic Investigations** 1.Renal Cortical Scintigraphy with Technetium 99m D.M.S.A- Doctor with qualification of MBBS MD/DNB/ DIPLOMA (Radiology) with at least 03 years experience, 2. Micturacting Cystourethrography (MCU)-Doctor with qualification of MBBS MD/DNB/ DIPLOMA (Radiology) with at least 03 years experience, 3. Retrograde Urethrography (RGU)-Doctor with qualification of MBBS MD/DNB/ DIPLOMA (Radiology) with at least 03 years experience, 4. EEG/Video EEG- Doctor with qualification of MBBS MD DM/DNB (Neurology) with at least 03 years experience 5.EMG (Electromyography)-Doctor with qualification of MBBS MD DM/DNB (Neurology) with at least 03 years experience. 6. Nerve Conduction Velocity (At least Two Limbs)-Doctor with qualification of MBBS MD DM/DNB (Neurology) with at least 03 years experience, 7. Polysomnography- MBBS MD /DNB/ DIPLOMA (Chest Medicine) with at least 03 years experience. 8. Barium Swallow- Doctor with qualification of MBBS MD/DNB/ DIPLOMA (Radiology) with at least 03 years experience 9. Barium Meal Follow Through- Doctor with qualification of MBBS MD/DNB/ DIPLOMA (Radiology) with at least 03 years experience 10. Barium

A ... J. J. 3/3

Enema (Single contrast/Double Contrast)- Doctor with qualification of MBBS MD/DNB/ DIPLOMA (Radiology) with at least 03 years experience 11. Intravenous Pyelography (IVP)- Doctor with qualification of MBBS MD/DNB/ DIPLOMA (Radiology) with at least 03 years experience 12. Contrast Hystero-Salpingography- Doctor with qualification of MBBS MD/DNB/ DIPLOMA (Radiology) with at least 03 years experience 13. USG Guided Intervention-FNAC- Doctor with qualification of MBBS MD/DNB/ DIPLOMA (Radiology) with at least 03 years experience 14. USG Guided Intervention-Biopsy- Doctor with qualification of MBBS MD/DNB/ DIPLOMA (Radiology) with at least 03 years experience.

- 8 Diagnostic Center/Hospital should have the Equipment for resuscitation of patients like Ambubag, O2 Cylinder, Suction machine and emergency medicines to manage emergencies should be available at the Diagnostic Center/Hospital.
- 9 Diagnostic Center/Hospital should have the availability a female nursing staff or Female attendants during the female patient's investigation.
- 10 Diagnostic Center/Hospital should have the provision for Back-up Generator, UPS and emergency lights during power cut
- 11 Diagnostic Center/Hospital should have the provision for adequate Bio-Medical waste disposal.
- 12 Diagnostic Center/Hospital should be registered with State Health Authorities as per rule.
- 13 Diagnostic Center/Hospital should be ready to provide the Report within 24 hours of the test done, and may have the provision for sending the reports via E-mail.
- 14 Diagnostic Center/Hospital should be ready to provide provisional report to the referring doctor on telephone in emergency situation.
- 15 In case the unit/Equipment is out of order in Diagnostic Center/Hospital for any particular period, it will be the responsibility of the Diagnostic Center/Hospital to get the Investigation done from some other place by a Qualified Doctors at no additional cost. Diagnostic Center/Hospital should be ready to provide this facility.
- 16 Diagnostic Center/Hospital should be ready to give priority to the Railway patients sent for above mentioned Noninvasive Cardiac Investigation.
