

Reliability Improvement - 02/23

VERSION CONTROL SHEET

<u>Version No.</u>	<u>Remarks</u>	<u>Date of Issue</u>
1.0	New issue	03.08.2023

Sub.: Modalities during any trenching/Digging work in vicinity of S&T cable in Railway premises

Apart from already circulated instructions and JPO No. S&T/NCR/JPO & Policy (HQ) dated 07.09.2015 and R.B. latest guidelines circulated vide letter No. 2021/Tele/5(2)/3-Part(I) (3425647) dated 12.06.2023. The following precautions to be taken to protect the S&T cables during digging/ trenching work:

1. S&T deptt. will trace the Cable by Cable Route Tracer in the vicinity of digging/trenching area.
2. After identification of S&T cables, marking to be done by using Lime Powder. Trenching/ digging to be done on marked line powder only. No deviation permitted.
3. After cable marking is done, S&T open line staff who is nominated for supervising the work will present at time of digging/trenching. All the time digging work should be undertaken in his presence only.
4. The name & contact no. of executing deptt. Supervisor (or his nominated staff) and name of open line S&T staff/ supervisors or his contact phone no. shall be notified in S&T/CNL room.
